Checkpoint 8 10-11-2020

Manolov, Moni M.K. 2 months ago

- 1. Progress in the domain but still a lot of work to do in the front- end, but I am on track
- 2.I have built extensive unit- testing but I have to do the integration testing and system testing as well
- 3. I need to integrate all the relevant documents to the design document
- 4.I have shown professionalism excluding the design document

Metaxas, Georgios G. (Teacher) 2 months ago doing well, but I was expecting more from you last sprint

Checkpoint 7 02-11-2020

Manolov, Moni M.K. 3 months ago

- 1. I am on track with the individual project
- 2. Really stable results so far

Bahreini, Kiavash K. (Teacher) 3 months ago So far so good. Keep going Moni...

Checkpoint 6 01-11-2020

Manolov, Moni M.K. 3 months ago

For the individual project I think I am on track, I have almost set up the database and the unit tests, but I have some work with the UI of the website. For the group project I am really satisfied with my group, we are working in collective, we help each other and learn one from another. The next thing we have to do is to separate the different kind of users which we will be done to the end of next week.

Bahreini, Kiavash K. (Teacher) 3 months ago Great job. Good luck Moni.

Checkpoint 5 14-10-2020

Manolov, Moni M.K. 3 months ago

- 1. I have made a lot of progress
- 2. My environment is set up but now I should take some quality assurance measures.
- 3. I should read more about git branching
- 4. My CI is set up successfully
- 5. I should add all my sub design related documents in one single report
- 6. I have showed showed commitment and professional skills, trying to complying with all the sprint's requirements

Bahreini, Kiavash K. (Teacher) 3 months ago

Very well done Moni △ With a bit more efforts you'll back to your correct learning path again. Let's talk individually and we will sort out any possible issues. Good luck △

Checkpoint 4 22-09-2020

Manolov, Moni M.K. 4 months ago

- 1. I should add user stories in Jira
- 2. I tried to set up the CI for my project but it doesn't work
- 3. I have made significant effort in analysing the problem
- 4. I show professionalism

Checkpoint 3 18-09-2020

Manolov, Moni M.K. 4 months ago

- 1. I should add content in Scope and precondition in my project plan
- 2. I should make my Gantt Chart for the individual project
- 3. I should fix research questions and phases of the project in my project plan
- 4. I have made good argumentation about the testing strategy I am going to apply

Checkpoint 2 10-09-2020

Manolov, Moni M.K. 4 months ago

- 1. I have created description for my individual project and the project managers approved it.
- 2. I am done with the assignment for RESTful services and it is uploaded to GitLab (https://git.fhict.nl/I444652/restful-services-school) and Mr. Metaxas is satisfied for this assignment.
- 3. Choose how many sprints I would have.
- 4. Take a look of the learning outcomes and make sure that the project contains them.
- 5. Create Jira project and add all requirements in your backlog.
- 6. I should have 70% of my project plan until the end of this sprint.
- 7. I should check ACM Code of Ethics and Professional Conduct
